

Sunny Art

The Sun has been depicted in many artistic works throughout time. It has inspired artists with themes and colour.

What you need to do:

Find a selection of 5 different pieces of art, which depict the sun as part of their theme or inspiration. Attempt to collect these pieces from as many styles as possible.

- Examine each piece and attempt to address the following:
 - Is the Sun theme direct or implied?
 - What message is the artist trying to convey by depicting the sun as they have?
 - Describe what the work brings to you as the viewer.
- For each artist represented in your collected pieces, research their other works
 - Does the artist show a regular interest in sun themes and, if so, are they treated in the same way?
 - Does the artist typically portray themes focussed on outdoors or nature?
- Write a creative essay on one of the pieces included in your selection.
